

ProtoDUNE-HD Wire-Cell 3-D Imaging & Deghosting · per APA

tomographic tiling: fired U/V/W wire strips coincide → blobs (+ false crossings) → charge-solve & deghost → 3-D clusters

one time slice — real blobs (navy) & flagged ghosts (magenta)

stack 2-D blobs along drift → 3-D image

full event, Z-Y — deghosted, charge-solved result
