

ProtoDUNE-VD Wire-Cell 3-D Imaging & Deghosting · per CRP

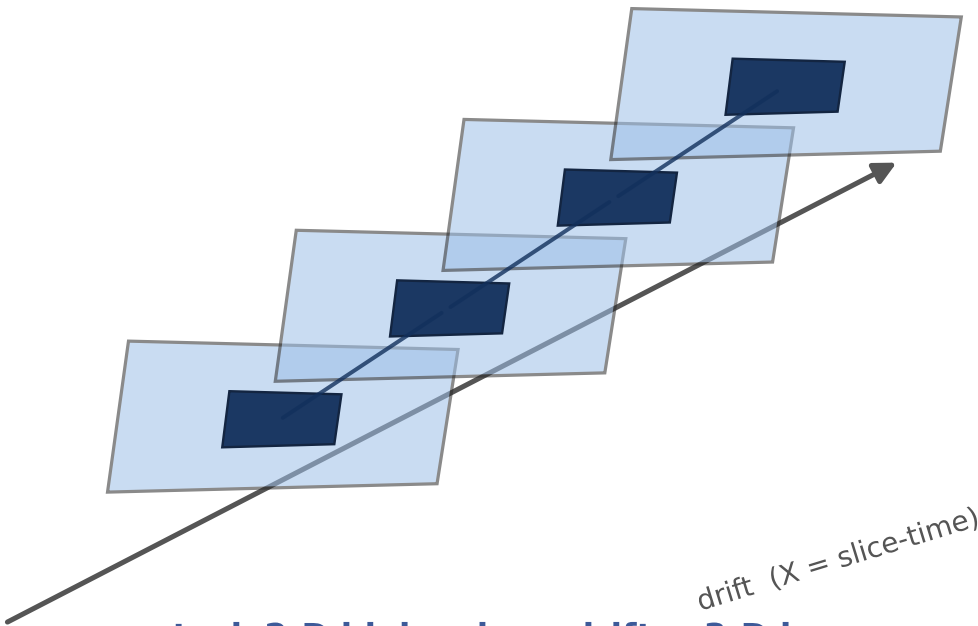

tomographic tiling: fired U/V/W wire strips coincide → blobs (+ false crossings) → charge-solve & deghost → 3-D clusters

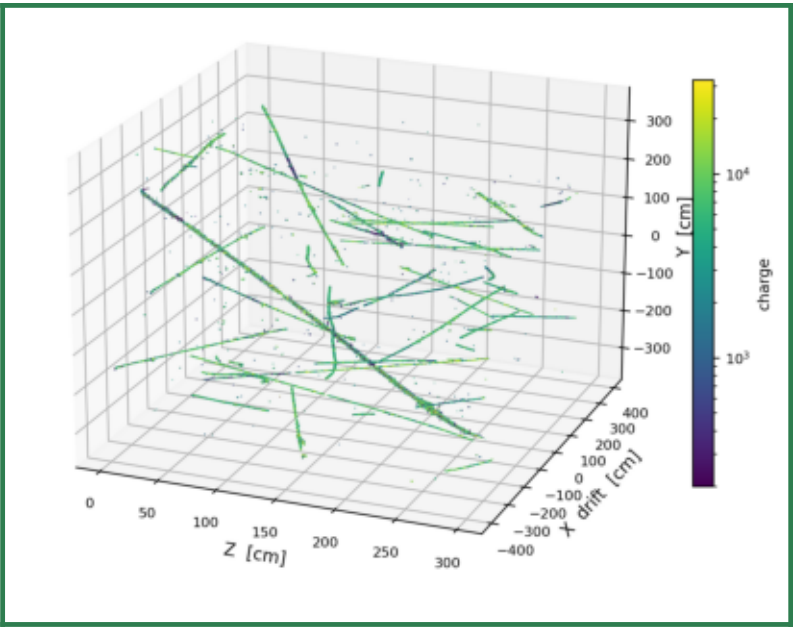

② tiling: false triple-overlaps ⇒ ghosts

ghost concept — toy 3-plane tiling (Fig. 8)

stack 2-D blobs along drift → 3-D image

full event 3-D charge display (Bee) — deghosted result
