

ProtoDUNE-HD Wire-Cell 3-D Imaging & Deghosting · per APA

tomographic tiling: fired U/V/W wire strips coincide → blobs (+ false crossings) → charge-solve & deghost → 3-D clusters

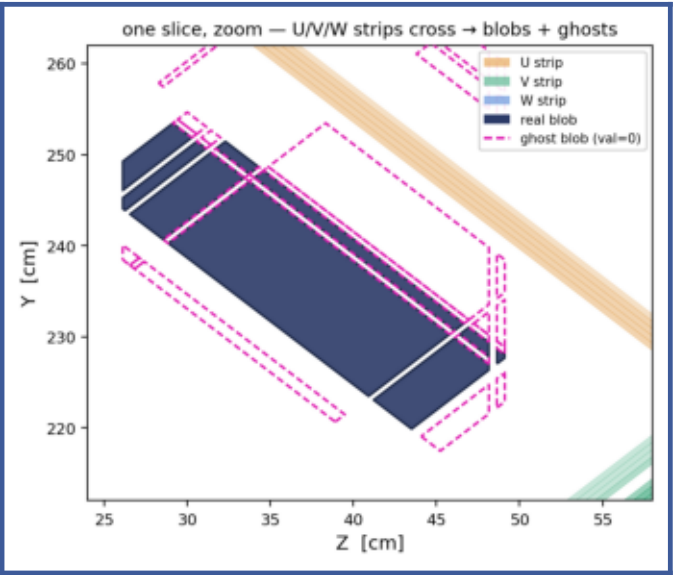

pre-proc: CMMModifier ·
FrameMasking · ChargeError

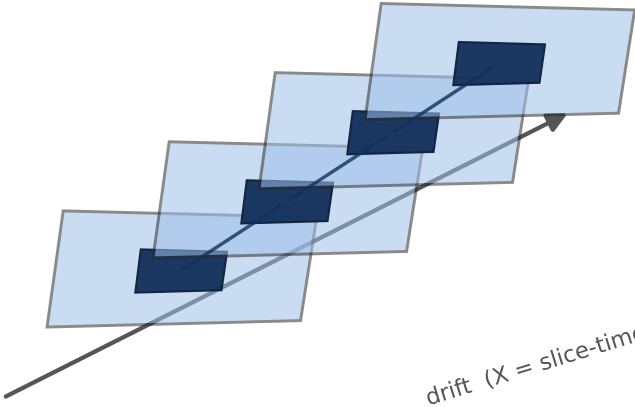

⊕ dead / masked fork: 2-view blobs (dummy plane, span 1500), geometry only → clusters-apa-*-masked.tar.gz

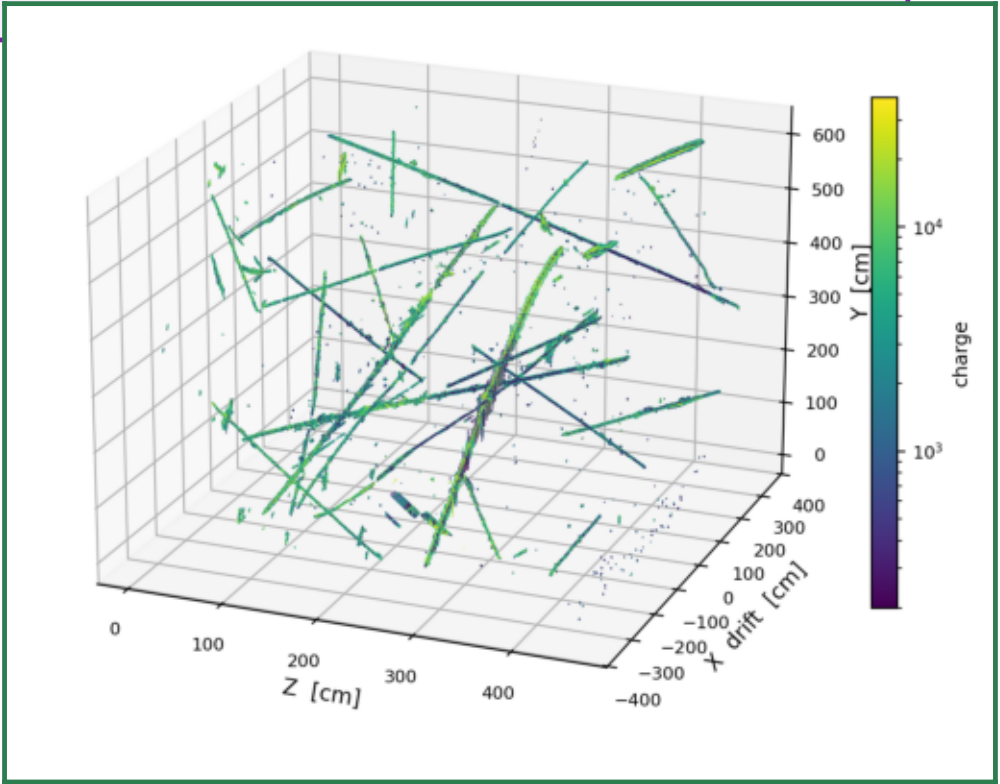

② tiling + ③ deghost

one time slice — real blobs (navy) & flagged ghosts (magenta)

stack 2-D blobs along drift → 3-D image

full event 3-D charge display (Bee) — deghosted result
